I want to extend a warm welcome to everyone enjoying our parks and taking part in activities at our recreation facilities this summer.

We are fortunate to live in a community with a great cultural history and celebrate our diversity in a unique and very spiritual setting. This past winter and spring, we have been blessed with wonderful moisture that has benefited our city and reservoirs. However, our recent drought conditions are not over yet. Therefore, I still urge everyone to conserve water where we can and enjoy our parks and recreational programs and services.

I encourage you to look through this 2005 Summer Activity Guide where you will find quite a bit of fun and healthy offerings for you, your friends, family and visitors. From golf to ice skating; from yoga to water aerobics; from outdoor and indoor swimming to weightlifting; from recreational camps to walking trails; and so much more. Thanks to the dedicated parks crews and recreational staff, the Parks and Recreation Department offers us all so much throughout the summer.

My family and I look forward to seeing you in our parks, facilities, special events and programs this summer of 2005.

¡Con cariño!

Fees/Schedules/Class Descriptions

FEE: \$70 (Includes six 30-minute lessons, once per week, 30 minutes of supervised practice, rental skates, USFS Registration Fee and two free public skate passes for the six week session). The first two weeks will start with a 30-minute lesson followed by a 30-minute supervised practice. The remaining classes will begin with a 15-minute practice, the 30-minute lesson, then another 15-minute practice. Both Strokings/Interpretive and Moves in the Field/Footwork classes are only 30 minute classes, are \$40 for the six week session and do not include a supervised practice. The levels are as follows:

Parent / Tot

This Program is designed to teach the parent to instruct their child in the basic skills of skating. Group lessons will focus on sitting and standing up with skates on (off and on ice), stopping, forward and backward skating. This is a great opportunity for parents and tots to socialize with people of similar interests while spending quality time together. Class fee includes both parent and tot lessons.

Snowplow Sam

This section of the Skate With U.S. Program was designed to help children ages 4 - 5 develop preliminary coordination and strength necessary to maneuver on skates. Some of the elements in this section are the same as those in the Basic Eights, but the degree to which the skater is expected to perform the elements is to a much lesser extent. A few children in this age group may be prepared to begin at the Basic 1 level. Time with Snowplow Sam will allow preschool children to become comfortable on ice commensurate with their physical development.

The Basic Eights 1-8

The Basic Eights are designed to introduce beginning students to the fundamentals of ice-skating and to encourage continued participation in skating as an enjoyable lifetime sport. Some examples of the elements taught in the Basic Eights are gliding, swizzles, stroking, crossovers, stops, three-turns, mohawks, jumps, and spins.

Hockey 1-4

These classes have been designed to fulfill the basic needs of those interested in hockey skating. Some of the elements covered in this section are forward and backward crossovers, stroking, mohawks, hockey turns, and hockey stops. This program will prepare boys and girls with skating skills they need for the youth hockey leagues. All elements will be taught without a stick or puck as proper skating techniques are the primary focus of the classes.

Adult 1-4

The adult curriculum is designed for the beginner adult skater. It is designed to promote physical fitness, improve balance and coordination while learning proper skating techniques. Divided into four levels, adult skaters will progress at an individual rate while being challenged and motivated.

Moves in the Field/Footwork

Moves in the Field/Footwork will help develop all basic fundamental edges and turns, while emphasizing edge quality, extension, quickness and power. The footwork part of the class will use the skills learned from Moves in the Field to develop exciting and impressive sequences of turns, edges, swings, and toe pick spins while maintaining proper posture and body position.

Strokings/Interpretive

This class will teach efficiency of pushing and direction for maximum speed and control to music. Presentation and expression are also emphasized as are deep edges. Join this class for a good workout.

The pool can be used for different programs (i.e. swim classes, scuba, birthday parties, private groups, etc.)

1. The City of Santa Fe Parks and Recreation Division and the contracted services will have first priority during schedule development.
2. External group rentals, either by profit or non-profit organizations, will be considered for scheduling in the order that they are received. Groups requesting multiple dates and sequential scheduling may receive preference over single rental requests. Best place to throw a birthday party. You provide your own drinks, food, and cake and you must clean your own mess. Price is only \$40 for 10 children and \$1.00 for each additional child. Advance bookings are required. Chaperones are required to remain present at all times; there is no additional charge for the chaperones.

TRAILS

955-2103

Santa Fe has a variety of trails and public paths that encourage outdoor recreation and promote fitness. Some trails link parks and other destinations, creating greenways through densely developed areas. Others, such as the Rail Trail, extend well into Santa Fe County through less developed landscape. So, put on your walking, running, or hiking shoes - or get out your bike or skates - and take advantage of the trails that Santa Fe has to offer.

KEEP SANTA FE BEAUTIFUL

955-2215

Activities

June 24, 2005

Keep Santa Fe Beautiful Awards Night – Keep Santa Fe Beautiful recognizes all of our hardworking volunteers and businesses that go out of their way to support our programs.

June through July

Phone Book Recycling Program – Keep Santa Fe Beautiful works with the City of Santa Fe Solid Waste Division and Qwest Dex to encourage Santa Fe residents to recycle their old telephone books.

Year Round Events:

School Recycling Program – Keep Santa Fe Beautiful along with the City of Santa Fe, Solid Waste Division works with the Santa Fe Public Schools to recycle at their schools and offices.

City of Santa Fe Recycling Program – Keep Santa Fe Beautiful along with the City of Santa Fe helps coordinate recycling for city offices.

What's New at Parks & Recreation – Gilda Montano, Keep Santa Fe Beautiful Coordinator hosts a weekly television show on Channel 8 to advertise upcoming events within the City of Santa Fe, Parks & Recreation Department along with other entities.

Trash to Treasures Orta Vez – Along with the Santa Fe New Mexican, Keep Santa Fe Beautiful has a weekly column in the Sunday Issue - Focus Section that advertises items that people are giving away. All items are free. This program helps save the landfill space and assists residents or non profit organizations who otherwise cannot afford to purchase these items.

Adopt-A-Median Program – One of our most visible, successful and oldest program in our continuing effort to Keep Santa Fe clean and beautiful. Through partnerships with business owners and individuals along with City of Santa Fe Parks & Recreation Department has been able to landscape and maintain over 200 medians with the City of Santa Fe.

Upcoming Fall Events:

September 24, 2005

Trek for Trash Fall Clean Up – Like our Great American Clean Up for this event volunteers young and old come out to help clean up our city streets, parks arroyos and school grounds. Post picnic to thank our many hard working volunteers is given.

September 8, 2005

Zozobra (Litter Free Event) – Keep Santa Fe Beautiful along with volunteers hand out trash bags during this event. People are asked to place their trash in the bags and then after the event City Parks & Recreation Department retrieve the bags. This helps to keep the park clean during the event and also an easier post clean up.

October 15, 2005

Keep Santa Fe Beautiful Wine Tasting Fundraiser – This is a fundraiser for Keep Santa Fe Beautiful Programs.

November 18 – 20, 2005

Recycle Santa Fe Art Festival (America Recycles Day Event) – The Festival includes a recycled art market, exhibit and fashion contest. We provide music, food and children's activities all weekend long. The intended result of the Festival is to educate New Mexicans about waste reduction in a fun and creative venue; to stimulate local economic development, and ultimately reduce the amount of waste disposed in the landfill. All activities during this 3-day event are open to the public. This event is sponsored by the City of Santa Fe, Parks & Recreation Department and Keep Santa Fe Beautiful in conjunction with America Recycles Day activities that take place in November across the state and country.

PARKS & RECREATION

Suggested Woody Plants

We have developed a working list as a living document of plant materials that can reasonably be expected to grow acceptably in the Santa Fe area, given proper siting and care. Some of these plants have limited availability at this time, though nursery supplies are increasing. There are others that might grow equally well here, but they have been excluded at this time due to their even more limited availability.

Knowing that our current drought situation may be with us for awhile, this list will be reviewed and modified periodically as potentially useful plants and information are introduced or become more readily available.

The Suggested Woody Plant list is not intended to be used to limit plant selection, but to serve as a guide for those who want to know more about reasonable choices for this area. This list is available from three sources: The Parks and Recreation Department at 1142 Siler Road, the Santa Fe County Cooperative Extension Service at 3229 Rodeo Road or on line at santafetrees.com and santafenm.gov.

For those who wish to experiment with plants not on the list, we urge you to find out all you can about the plants' expected hardiness, resistance to disease and insects, cultural requirements and potential problems.

The Pine Bark Beetle Reducing the Impact

Recognizing that the Bark Beetle Outbreak is having a significant Impact on the greater Santa Fe area, the City Council has directed staff to develop a plan of action for dealing with this problem. A major component of this plan is to provide information to citizens in an effort to help reduce the impact of this infestation. According to forest health experts, the best way to avoid having trees attacked by bark beetle is to take preventative measures.

What Can You Do?

- 1. Thinning-** Reduce the competition for water, sunlight and nutrients among the trees. In most areas of town the Piñon tree stands are unnaturally dense, due to previous periods of above normal precipitation resulting in overcrowded growth. The State Forestry division and Cooperative Extension service can help you with specific advice regarding tree thinning. Many of the local Horticultural services can also provide valuable information.
- 2. Watering-** Watering trees at the drip line to a depth of two feet will promote tree health, pay particular attention to the months of May, June and October if we have had light snow fall or a lack of rain during the growing season. However, depending on the weather patterns watering may be needed at other times of the year.

PARKS & RECREATION

- 3. Remove Green Debris-** The beetles are attracted to the wood and limbs of fresh cut trees. This material could be chipped or stacked on site. We recommend covering the piles completely, with clear 6 mil plastic or removing the wood to the Caja del Rio landfill. The fee has been greatly reduced for hauling in clean green waste where it will be processed and completely recycled for us in regional erosion control projects.
- 4. Dead Trees-** When the tree is dried out and the bark is beginning to fall off it will not attract bark beetles. Leaving as many of these trees as you can provides habitat for wildlife and will return carbon and nutrients to the soil as they decompose. The logs and branches can also be utilized when constructing erosion control features.

Spraying

The City of Santa Fe does not promote spraying for bark beetle control. The bark beetle populations have increased to epidemic proportions because of extreme drought and unnaturally dense Pinon Pine stands. Spraying the trees will provide a measure of control for the beetle but you will still be left with a dense, weak stand of Pinon pine susceptible to attack by other organisms feeding on drought stressed trees. Remember, when you spray, you will be killing the many beneficial insects along with the beetle.

Should you make the decision to spray we recommend the following “good neighbor guidelines”:

- Research as much information as possible regarding the toxicology and use of the pesticide.
- The local nurseries can provide helpful information when reading the label. Make sure the label specifically registers the use of the chemical for bark beetle control. The label is the law and you are required to follow all directions accordingly. The internet provides extensive information not provided for on the label, citing effects of its use on the environment and toxicology studies.
- The person most at risk from pesticide applications is the applicator. Consider contracting with a professional, licensed applicator. Discuss the spray treatment thoroughly and ask for references.
- Consider spraying as few trees as possible, those great old “Grandfather” trees that would have the greatest impact on your property if they were to die.
- Visit with your neighbors before you spray. Give them the opportunity to close up their house, provide for their pets and express their concerns. You have provided them the opportunity to express their concerns and can take steps to minimize the effects of the spray application on the adjoining property.
